

Latinx spending priorities for COVID relief

The top priorities from this community engagement exercise are clear. **Child Care** and **Good Paying Jobs** are the most pressing priorities of the Latinx community

Anecdotally, this set of priorities is shared consistently among the residents of Clatsop County. "These priorities are consistent with the Astoria City Council Vision and Goals, and reflect the concerns I've heard from Astoria residents throughout my 4 ½ years on the City Council."

Bruce Jones, Astoria Mayor

*The elements of the County Draft Spending Plan were based on the American Recovery Act Federal guidelines, Oregon's Ten Point Recovery Plan, and Clatsop County's Strategic Plan, and many do not map to the categories for this exercise. For example, the draft plan includes funding for the County's space planning and emergency preparedness, which were not categories for this exercise. The primary takeaways are the disparities in spending priorities for Child Care, Affordable Housing and Internet Access.
